

**ZEPHYR**  
OFFERS YOU

the **three top microphones**  
in the high fidelity field

**'80' SERIES (DYNAMIC)**

**'40' SERIES (VELOCITY)**

**'50' SERIES (VELOCITY)**

Write or phone today for free illustrated literature giving full technical details of the complete Zephyr range. Illustrated here are:

**"80" Series:** The factory's latest production—a high quality dynamic microphone of striking appearance. Possesses excellent frequency response and is very solidly constructed.

**"40" Series:** A high fidelity studio microphone with real "artist appeal" and at a reasonable price. Designed for musical and high quality speech reproduction.

**"50" Series:** Australia's highest grade velocity microphone, as used at Federal Parliament House, U.N.E.S.C.O., leading Broadcasting Stations and in P.A. systems of large organisations.

each representing unbeatable value in its particular class!

**5XA CONFERENCE MIKE**

**'80' SERIES DYNAMIC MIKE**

**'40' SERIES VELOCITY MIKE**

There is now a Zephyr mike for every need. We announce three of the latest productions now available for immediate delivery through all Radio Supply Houses and Pyrox Distributors. Full technical details and prices are available on application.

## ZEPHYR '40' SERIES

**ZEPHYR "40" SERIES:** A medium priced, high grade velocity microphone with outstanding characteristics which place it in the upper class field of faithful, wide range recording mikes. The performance is very close to the renowned Zephyr "50" series, so well known to broadcast and recording engineers that it needs no amplification here. The "40" series incorporates the latest design techniques and uses exceptionally powerful magnets giving high output and wide range response. Available in 50, 200, 500 ohms and grid impedance outputs. Output approximately -60 db's.

## ZEPHYR '80' SERIES

**ZEPHYR "80" SERIES** offers a very high grade dynamic mike suitable for P.A., Ham, or recording purposes. The design is new, and the finish has an attraction that meets general approval. This dynamic mike was fundamentally designed to be incorporated in wire and tape recording equipments to fulfill a requirement that has not, to date, been completely met. The insert is of overseas manufacture and is very rugged. As with the "40" series, the outputs are 50, 200, 500 ohms and grid impedances. Output -50 db's.

## 5XA CONFERENCE MIKE

**"5XA" CONFERENCE MIKE** is an omni-directional crystal microphone, specifically designed for use in conjunction with wire and tape recorders, in addition to general communications purposes. It is capable of recording with crystal clarity, comments, music, etc., from all directions.

Manufactured by Cunningham Industries Pty. Ltd., Melbourne
